

SOUP N' SCIENCE

VISITING SCIENTISTS:

NASA – ASTROBIOLOGY OF ICY WORLDS

UIC Science is excited to introduce a team of scientists and engineers from the NASA Jet Propulsion Laboratory who are in Utqiagvik to test their Buoyant Rover for Under-Ice Exploration (BRUIE). The group is here to do preliminary testing on their equipment for future science deployment missions in the Arctic. Please come and eat some homemade smoked-moose soup and learn about under-ice rovers!

Let's have some homemade soup and learn about:

- *NASA's Buoyant Rover for Under-Ice Exploration (BRUIE);*

-*Why under-ice exploration is important;*

-*Initial lessons learned during preliminary testing of equipment in BRW.*

Time: Thursday May 4, 2017
12:00-1:30PM

Place: BARC Large Conference room (Barrow Arctic Research Center is located on the NARL campus).
